15.12 2015 № 08-50-27/02

На № _____ ад _____ 20__

To those whom concerns

After the end of the Tempus funding of the project 530603-TEMPUS-1-2012-1-LT-TEMPUS-JPCR “Reformation of the Curricula on Built Environment in the Eastern Neighbouring Area” Belarussian State Technological University will continue the activities aimed at the dissemination of the project results and the further development of the study process in the field of the sustainable development of built environment and Real Estate.

The main of the planned activities are the following:

1. Upgrading the curricula of BSc/specialists and MSc in Real Estate Management, paying significant attention to the issues on built environment and its sustainable development. Studying of BSc/specialists and MSc in Real Estate Management using these upgraded curricula.

2. The application of the issued within the project monographs in the BSc/specialists and MSc study process.

3. The use of the Electronic library and Virtual interuniversity networked educational system in the BSc/specialists and MSc study process. BSTU will take care of the servicing of the Virtual interuniversity networked educational system, providing access to it via the server, that is situated in BSTU.

4. The continuation of the filling of the library and Virtual educational system with the study materials and the constant communication with the “Reformation of the Curricula on Built Environment in the Eastern Neighbouring Area” project partners.

5. The continuation of the international academic cooperation, adopting the best European experience in the field of the BSc/specialists and MSc study process to keep the actuality of curriculum.

Vice-rector

/ Serhei Kasperovich /

BSTU project coordinator
